SO many. why did you list two of the TES games but not morrowind, the RPG'est of them all???? if an oldschool RPG exists, i have probably played it, including TTRPGs and while i have played minecraft, it is not in any way an RPG. in fact, it is the antethisis of an RPG. there is no plot, there is no character, there is no role to play. i acknowledge that you absolutely could roleplay IN minecraft and many people do but at that point you're not asking about RPGs any more but roleplay instead, which is an entirely different hobby.
Fallout Assassin's Creed
Final Fantasy series; Persona series; Shin Megami Tensei franchise; many other RPGs predominantly developed in Japan.
Mass Effect (entire series), Dragon Age (entire series), Fallout (entire series), The Outer Worlds; Final Fantasy (most games), Fire Emblem: Three Houses, Tales of Vesperia, Tales of Berseria (and a lot of other Western and Japanese RPGs)
